

## Motor Clean

### Description

Specially formulated combination of additives and carrier fluid. In combination with the carrier fluid, the highly effective detergent and dispersant additives dissolve sludge and lacquer formers. All types of oil soluble and oil insoluble residues are brought into suspension and removed during the next oil change. An engine which has been cleaned of deposits and contamination and is filled with fresh oil which is not contaminated with old impurities can develop its full performance characteristics.

### Properties

- prevents lubrication deficiency
- reduces pollutant emissions
- gentle cleaning
- highly economical
- does not attack common sealing materials
- rapid and effective cleaning
- no pollution to the environment
- simple to use
- tested for turbochargers and catalytic converters
- suitable for diesel particulate filters
